

# Fun Filled Weekend Planned For All

The Lake Mayfield Mini-Hydroplane races are being coordinated by the East Lewis Chamber of Commerce in conjunction with the Seattle Outboard Association. While the boats may have "Mini" in their name, there is nothing small about the fun and excitement that is going to permeate the event come May 2-4, 2008.

There's something about the smell in the air of burnt fuel and the roar of an outboard engine on these speed racers as they zip around the track at speeds of 60-70 MPH.

The racing venue is one of exquisite beauty surrounded by the lush location at Ike Kinswa State Park in Mossyrock, Washington. Located off Route 12, about 16 miles East of I-5, the site is conveniently located midway between Portland and Seattle, each being about 1.5 to 2 hours away. The event is expected to draw thousands of excited fans as, with the exception of Olympia, we know of no other Mini-Hydroplane races scheduled along the I-5 corridor for the entire season. In expectation of high attendance, parking will be restricted at the venue and shuttle buses will run to the parking area about 2 miles away. A \$2 per person, per day shuttle charge will be collected at the parking lot.

TENTATIVE PUBLIC EVENTS SCHEDULE	
TIME	EVENT
<b>FRIDAY MAY 2, 2008</b>	
9:30 AM	Satellite parking lot opens. Shuttles begin between Parking and Race Venue
